## Adjust your heating on the go, directly from your smart phone.

NiDO Steel WiFi and NiDO Glass WiFi offer advanced smart heating control with compatibility to both TUYA and Smart Life App's. This provides users with enhanced control, freedom, and convenience in managing their heating systems from their fingertips, from anywhere in the world.

Smart WiFi Connection, directly connects to your thermostat via WiFi, allowing remote control of your heating preferences from your smartphone, no matter where you are.

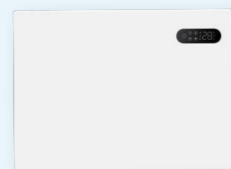

Customizable Heating Schedules with 24-hour timers allow for users to manage their daily and weekly heating needs ensuring cost and carbon efficiency at all times.

Working with Google and Alexa Assistant, control the NiDO WiFi heaters with your voice, adding another layer of convenience and seamless operation.

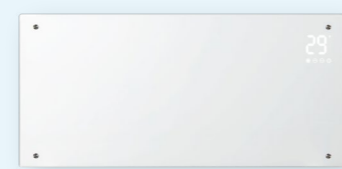

By integrating the units with the TUYA or Smart Life App, users can enjoy a modern, flexible, and efficient heating management system.

Compatible with:

**NiDO Steel WiFi**

**NiDO Glass WiFi**

### 24 Hour-Weekly Planner

Plan your weekly heating schedule with a 24-hour timer and weekly program settings.

### Mobile App

Use TUYA, or Smart Life App to adjust your heating from your fingertips.

### Temperature Control

Accurate room temperature regulation and control directly from your device.

### Connected Devices

Connect multiple heaters alongside other smart devices in one app.

### WiFi Compatible

With direct WiFi connection, you can adjust and control your home heating from anywhere.

### Smart Assistance

Compatible with Google Assistant and Alexa Assistant.
