

# Cable Joint

**May we introduce:** Our new 788/ESKV cable joint – now equipped with two ESKV cable glands!

The new 788/ESKV is an updated version of the original PG version. It offers installation options in the smallest of spaces and enables two identical cables to be connected without any problems. With protection class (IP68), it is also a tough connection for use in demanding conditions.

Updated  
Design

## What's new:

The 788/ESKV is now complete with 2 x M25 ESKV cable glands offering 9 - 17 mm clamping range.

The ESKV M25 is part of the SPRINT® system, which means that it can be used with a wide range of sealing inserts – making the 788/ESKV even more flexible when used with different cables.

# 788/ESKV Cable joint

High Protection

Polyamide Material

Temp. -30°C - 85°C

Glow wire 750°C

Size

Length 134 mm

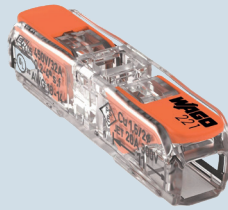

## Terminals

As well as updating the cable glands, the 788/ESKV has been enhanced to take both the standard 5-pole screw terminal and WAGO inline splicing connectors.

Complete with 3 x WAGO 221 inline splicing connectors mounted on a unique bracket designed to fit perfectly in the 788/ESKV.

5-pole x 2.5 mm<sup>2</sup> connector.

WAGO Inline 1-pole 0.2 - 4 mm<sup>2</sup> connector.
